Made entirely in Sweden and assembled in Singapore, T-Play at HomeTeamNS Bukit Batok is the first augmented playground introduced in HomeTeamNS, and one of the most interactive transportation themed playgrounds in Singapore.

Housed in a 4,200 square foot facility at HomeTeamNS Bukit Batok, the specially crafted kid-friendly arena consists of spectacular designs and interactive play centres. These centres are designed to engage the child's brain development, motion coordination and sense of direction, on top of providing a fun & educational experience for all our little friends & their families.
